

Kirklees – Supporting People

Supporting People delivers housing related support to vulnerable individuals to give them the skills to live independently. This service in Kirklees is provided by 9 organisations who contract directly with the council.

Challenges with the current contracting:

- Providers are primarily measured on service utilisation and are not incentivised to deliver longer term outcomes such as employment.
- As a result some service users are not achieving long term independence but instead re-entering a supporting people service after leaving previously. It is estimated that approximately 25% of the current cohort have used another support people service in the recent past.

In the outcomes model, a Bridges owned social enterprise will hold the future contract with Kirklees and subcontract to the providers. The social enterprise will employ a performance management function to support providers to deliver the target outcomes.

Proposed Outcomes – based on Fair Chance Fund and Manchester Rough Sleeping Homelessness Projects

Accommodation Prevention or Relief	Entry into employment
3 months perm accommodation outcomes	6.5 weeks equivalent employment F/T
6 months perm accommodation outcomes	13 weeks equivalent employment F/T
12 months perm accommodation outcomes	26 weeks equivalent employment F/T
