Dear colleague

Executive Role in the Integrated Care Board

Firstly, thank you for showing an interest in being part of the emergent South Yorkshire Integrated Care Board (ICB).

The development of our Integrated Care System in South Yorkshire and the role of the Integrated Care Board within it presents a game changing opportunity to improve the health and wellbeing of everyone who lives in South Yorkshire and the communities we serve.

I am hugely excited about establishing the new ICB and helping it to achieve its purpose creating an environment where partners - the local authorities, primary care, NHS provider organisations, the voluntary sector and others can work together to listen to our communities and work together in a truly joined up way to meet their needs. Covid-19 has demonstrated what can be achieved when systems pull together, but it has also brought into sharp focus the health and inequalities that exist in our communities. The establishment of the Integrated Care System on a statutory footing provides the best ever opportunity to address unfair, avoidable and systematic differences in the opportunity for all our citizens to live healthily and well.

The role of the unitary board will be pivotal in achieving our ambitions to improve population health, address health inequalities, improve the quality of care and provide sustainable services. I am looking for people who bring a breadth of skills, knowledge, and expertise, who are able to bring together the collective wisdom of our ICS partners to make a positive difference in the health and lives of the population of South Yorkshire.

We are also building a new organisation, bringing together 4 CCGs and an ICS, and continuing to work effectively with people across our 'one workforce'. I mention this as developing a vision and a shared set of values will be critical in our success, fostering the ability to be different, innovative, and responsive to the challenges of our particular places and professions, but held together by our core values and vision.

I am keen to develop a leadership team that is very visible across the system and that embraces diversity and inclusion, welcomes ideas from all the teams and partners working with us and focusses our collective energy to making a tangible difference for the people of South Yorkshire.

If you feel inspired by this and think you can contribute to achieving our ambition, then please do get in touch for a conversation. I look forward to hearing from you.

With best wishes

Yours sincerely

Gavin Boyle
Chief Executive Designate
Integrated Care Board in South Yorkshire
