

CARE CITY AT AXE STREET

A non profit health and social care organisation and
community hub in the heart of Barking

CARE CITY AT AXE STREET

Flexible space to suit your business needs

WELCOME

We are a community interest company, using innovations in care to help remake East London.

Our new office at Axe Street models those ethics of care and community, both as an office for our team and a platform for our work.

We want to enable Care City and its partners to do focused, individual work, and to host events, workshops and conversations in a space where all kinds of people will be comfortable to listen, learn and work, and where they can see and feel exciting work happening.

John Craig, CEO

OUR VISION

Care City is creating a welcoming, versatile space.

Care City supports:

- The health and wellbeing of staff
- The collaboration of Care City's partners and guests, creating an environment where people can network and socialise
- The growth of the organisation and for it to be a great place to work where people are inspired to be the best they can be
- The local community, creating opportunities for them to come together.

THE SPACE

Axe Street, the new home of Care City, a community interest company focussed on research, innovation and local health and social care workforce development, opens its doors late Summer.

It's been designed as a welcome and opening space, with a creative atmosphere, that sparks innovative thinking and brings together like minded people who are working to create a happier, healthier, older age for East Londoners.

The multi functional space has been designed to accommodate different needs. If you're looking for a place for your community activities, an event space, training facilities, or simply just want a change from working from home, this is a great space to think, create and collaborate.

As the space is flexible, so is the price, with room rates to suit one off usage or more formalised longer term partnerships and discounts offered to voluntary sector organisations.

Who the space may suit:

- Training Providers looking for a professional space to support learning and development
- Innovators and Academics keen to involve community members in product research and co-design
- Community partners needing a safe, comfortable space to bring people together
- Health and social care partners seeking support, collaboration and introductions.

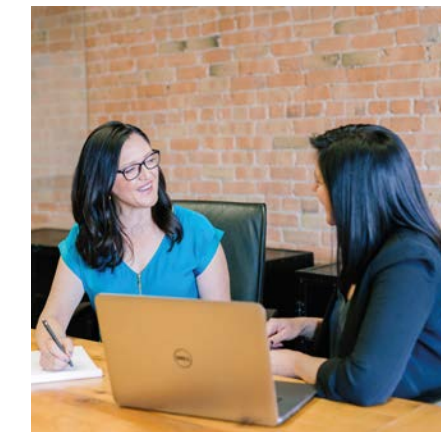

INNOVATIVE

FACILITIES & TECHNOLOGY

Axe Street offers all of the facilities you need to hold large events or simply the utilisation of desk space, ensuring they are accessible for all.

- Welcoming and warm dementia friendly space with touchless entry system and digital sign in
- Fully manned Reception and support with your event requirements and logistics
- Large multi purpose, height adjustable desks to accommodate agile workers
- Large events space, with state of the art presentation, projection and audio system
- Large fully equipped Boardroom, designed to support hybrid working
- Kitchen and toilet facilities.

BOOKING

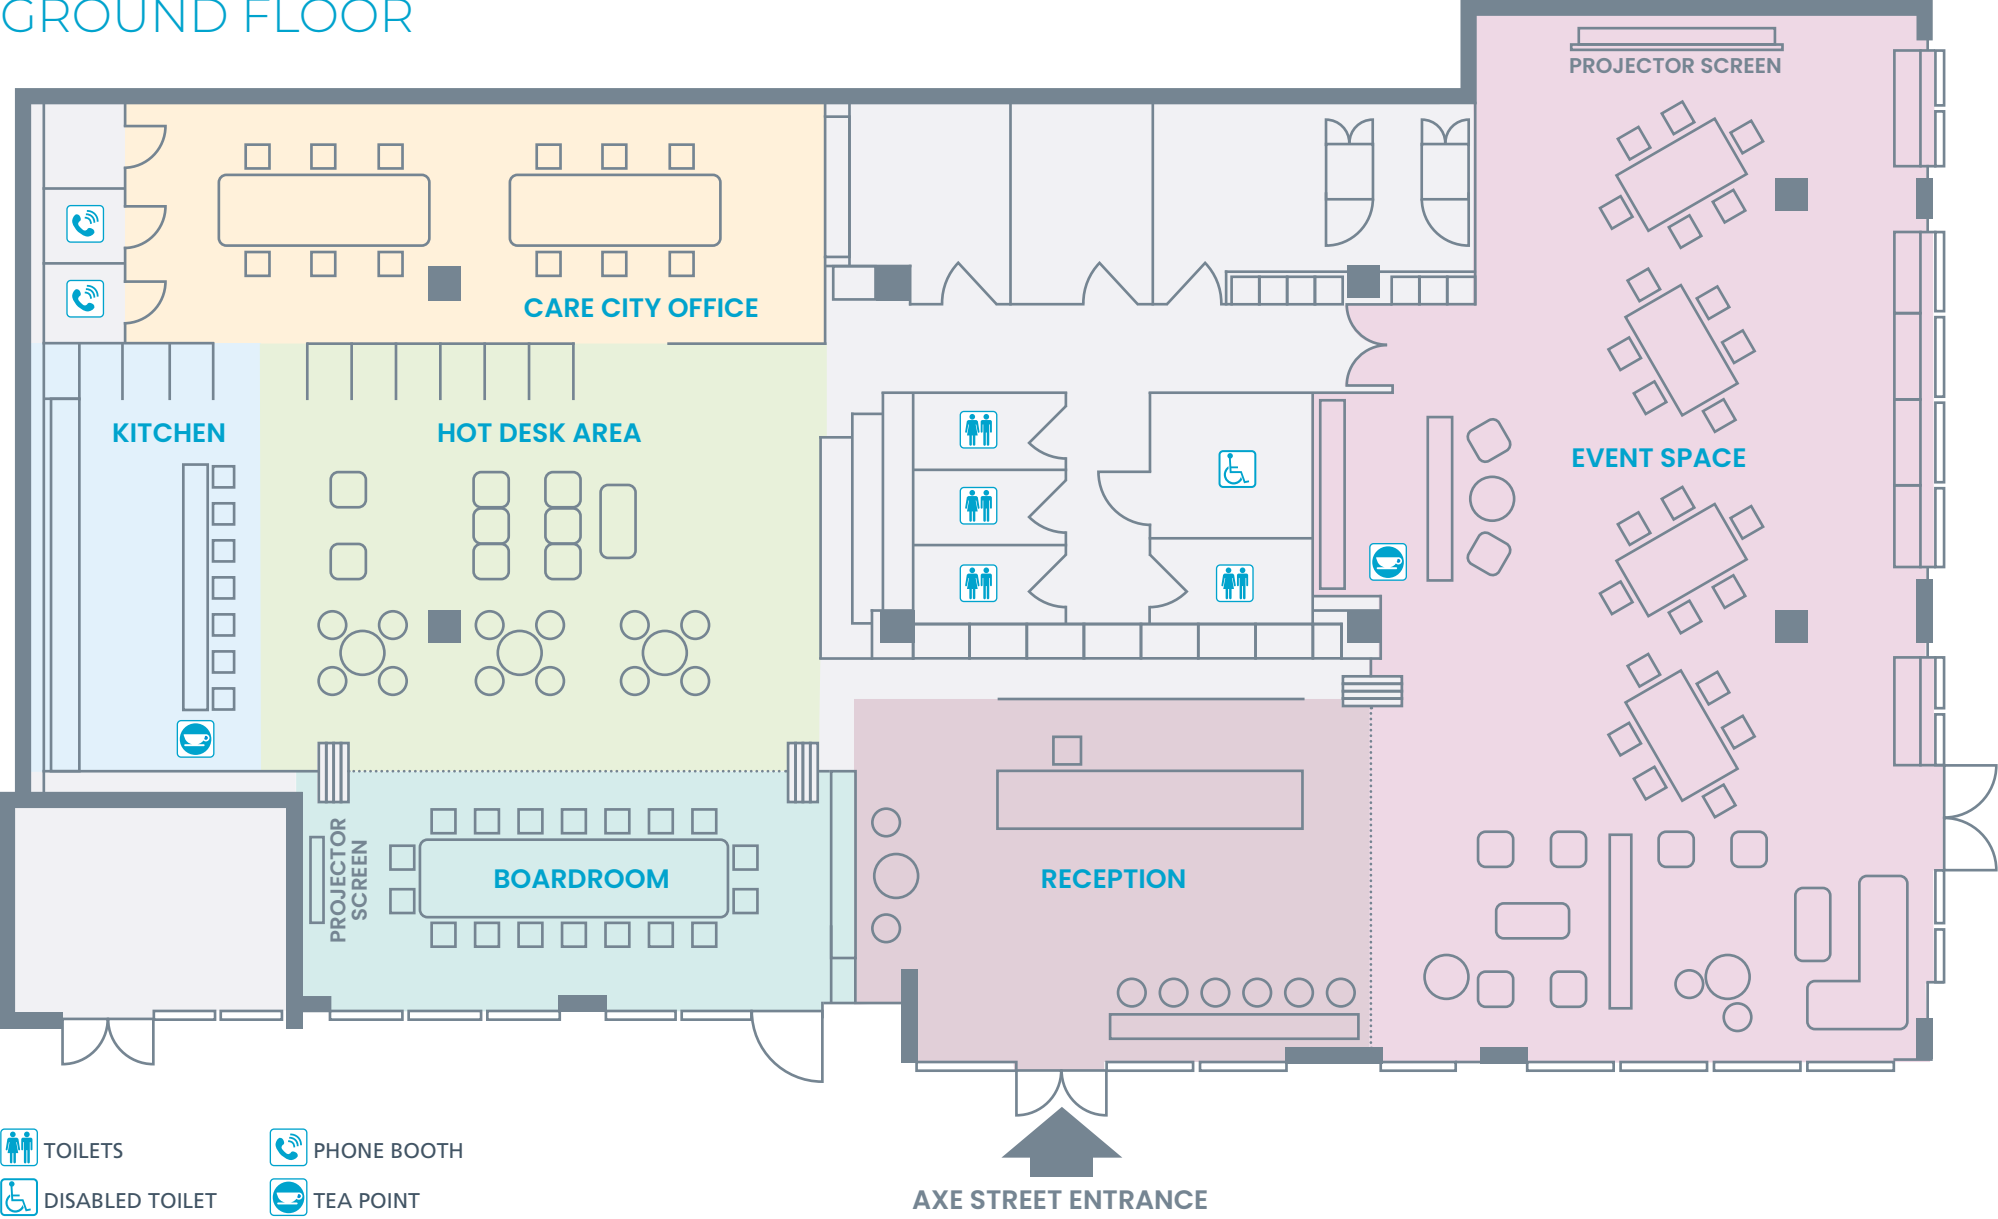

Email us your requirements and
we will take care of the rest.
